

I am opposed to loosening the rules that limit the number of newspapers and broadcast station that media companies can own. In America today there has been a reduction in the number of independent sources of news and information. It's bad enough now that one must access non-US media sources to find out what is happening in the United States. Various pundits decry other countries that have only government-controlled media. The United States is not much different except that the media is controlled by a handful of companies who are more powerful than the government.

Be bold and stand up to the influence of the media companies!!!
